

PRODUCT DATA SHEET

PRODUCT	: TEXTUREAID® M	
VERSION No.	: 2.1	DATE: 01-04-2018

Introduction:

The meat Industry is going through the challenging phase of keeping product prices under control while the manufacturing of restructured meat products without compromising the structural and sensory parameters of the finished products.

TextureAid® M is a SVP based meat texturizer, which aids in improved water holding capacity in restructured meat products which allows reduction of meat content without affecting the product quality.

Benefits:

- Allows reduction of meat by 5% in restructured meat products.
- Allows addition of water in product formulation by 5%.
- Provides significant production costs reduction for meat product manufacturers (Rs 2000/100kg).

Application Conditions:

Recommended dose of 0.50 % of total product formulation.

Frying Conditions:

- Temp. Range ~140°C for 3-6 minutes

Storage Conditions and Packaging:

TextureAid® M MUST BE STORED at temp. 25±5°C and 35±5% humid conditions.

It is best if used before 6 months from date of manufacturing.

It is available in 25kg HDPE bags.

All our products, conform to the standard FSSR, 2011 (The food safety and standard regulation, 2011 as amended by regulations, 2016)
