

PRODUCT DATA SHEET

PRODUCT : **AIRBLISS FABRIC STAIN REMOVER**

VERSION No. : **2.0** DATE: **01-09-2025**

AIRBLISS FABRIC STAIN REMOVER is a surfactant-based cleaning agent which is effective and eco-friendly, derived from plant sources which helps in breakdown of stains without harming the environment, making it a sustainable alternative to more traditional, chemical-based stain removers.

The product works by breaking down the bonds in the stain molecules, helping to lift the stain from the fabric. It is a safe effective solution for blood stains, which can sometimes be tricky to remove with traditional detergents. This plant-derived ingredients tends to be gentle on delicate fabrics while still being effective in removing tough stains. It's also non-toxic and less irritating to the skin, which can be important for users with sensitive skin or allergies.

It is a dual-action cleaning solution specially formulated to remove stubborn stains from fabrics during machine wash as well as from carpets and upholstery through direct application.

Key Features & Benefits

- Dual Application – Effective for both washing machine use and spot cleaning.
- Powerful Stain Removal – Eliminates common household stains such as food, beverages, oil, etc
