

PRODUCT DATA SHEET

PRODUCT	: AIDFERM [®] BREW AF	
VERSION No.	: 2.2	DATE: 01-04-2018

Introduction:

AidFerm[®] Brew AF is a user friendly, Polydimethylsiloxane based product.

In the present scenario, where the breweries are compelled to work under best of efficiencies due to competitive atmosphere in the industries, new technologies are most sought after.

AidFerm[®] Brew AF enables breweries to increase the fermentation capacity by at least 10 % without any infrastructure investments.

Benefits:

- *Increased fermentation capacity by 10% by reduced fermentation head space.*
- *Highly recommended for process intensification.*

Application Conditions:

- *AidFerm[®] Brew AF is a very stable product that performs best under normal wort fermentation conditions of pH 3.5- 6.5 & temperatures of 10-100⁰C.*
- *AidFerm[®] Brew AF is effective at concentrations of 3-5 g per HL wort.*
- *AidFerm[®] Brew AF may be added in the fermentation tank. It should be added along with the feeding of seed into the fermentation tank. It may be added in the media used for scaling up the yeast culture. We strongly recommend this product to be used in the recycled yeast cultures.*

Storage Conditions and Packaging:

- *AidFerm[®] Brew AF MUST BE STORED at temp. 25±5°C and 35±5% humid conditions*
- *It is best if used before 12 months from date of manufacturing.*
- *It is available in 25kg HDPE Bags/Drums*

All our products, conform to the standard FSSR, 2011 (The food safety and standard regulation, 2011 as amended by regulations, 2016)
