

PRODUCT DATA SHEET

PRODUCT	: ANTIOX	
VERSION No.	: 4.0	DATE: 04-04-2026

Introduction:

Beer, during storage undergoes gradual alteration due to the oxidation of polyphenols and proteins causing undesirable flavors and aroma changes.

AntiOx which is an appropriate combination of Sodium erythrobate and potassium metabisulphite prevents the formation of these undesirable characteristic by removing the dissolved oxygen present in the beer without affecting the desirable flavours/characteristics.

Benefits:

- Does not affect the desirable characteristics of beer
- Does not impart off flavours

Application Conditions:

- AntiOx is a free-flowing powder, readily soluble in cold water. It should be dissolved at 1kg/25 liters cold water.
- Dosage: 3-5g/HL in the beer.

Storage Conditions and Packaging:

- ANTIOX MUST BE STORED at temp. $25\pm 5^{\circ}\text{C}$ and $35\pm 5\%$ humid conditions
- It is best if used before 18 months from date of manufacturing.
Note: Please note that recommended storage conditions must be strictly followed.
- It is available in 25KG HDPE Bags/Drums.

All our products, conform to the standard FSSR, 2011 (The Food safety and standard regulation, 2011 as amended by Regulations, 2016). FSSAI LICENSE NUMBER – 10015043001372.

Ascorbic acid ($\text{C}_6\text{H}_8\text{O}_6 \cdot \text{H}_2\text{O}$) E300, Sodium Metabisulphite ($\text{Na}_2\text{S}_2\text{O}_5$), E223.

ANTIOX is a well-accepted, formulated food grade ingredient as per the Global brewing standards as beer anti-oxidants.

The ingredients are permitted beer additives via EC Directive 1333/2008 (as amended).
