|-------------|----------------|------------------|
| PRODUCT     | : MASHAID™ GXL |                  |
| VERSION No. | : 1.0          | DATE: 01-11-2019 |

### Introduction:

In a competitive brewing environment and with the present varying quality of malt and barely, it is a challenge to the brewer to extract the maximum solubles in the wort, from the grist.

Considering the fact that malt contains around 0.5% and 0.75% of beta glucan and pentosans respectively.

MashAid™ GXL is Beta Glucanase based enzyme which helps in overcoming such challenges.

### Benefits:

- MashAid™ GXL reduces the viscosity by around 0.3cpu, by degrading beta glucan and xylans in the malt, thereby improves Lautering.
- Increases the wort extract by 2-5%.
- Extremely cost effective
- Easy to use

### Application Conditions:

- Dose rate of 2-6 g/HL of beer
- Add to Mashton before commencement of Programme Temperature Mashing.
- Temp. Range 50-65 °C and optimum temp. 60 °C.
- pH range 3 -5.5 and optimum pH 4.0

### Storage Conditions and Packaging:

- MashAid™ GXL MUST BE STORED at temp. 25±5°C and 35±5% humid conditions
- It is best if used before 12months from date of manufacturing.
- It is available in 25 KGs HDPE Bags/Drums.
