

PRODUCT DATA SHEET

PRODUCT	: QUICKSTABAID® L	
VERSION No.	: 1.0	DATE: 01-04-2021

Introduction

QUICKSTABAID[®] L is a synthetically produced Silicon dioxide which is in the form of yellow color liquid. QUICKSTABAID[®] L adsorbs the proteins which cause turbidity in the beer. It increases the storage period of beer. QUICKSTABAID[®] L is a nontoxic, tasteless, flame-resisting & non explosive product.

Benefits

- QUICKSTABAID L helps to form flocs of protein by adsorption method.
- QUICKSTABAID L is selective to haze causing proteins and hence reduce the chances of haze caused through chilling in future.
- It is specified for a sharp filtration without affecting filter through-put by an optimized particle size distribution.

Application Conditions

QUICKSTABAID[®] L is silica adsorbent which is designed to selectively remove haze forming proteins from beer. It can be added by separate dosing system with 5-10 mins contact time with beer.

Dosage:

- The recommended dose of QUICKSTABAID L is 1-2 g/HL. Prepare 0.5 to 1% w/v solution of QUICKSTABAID L using distilled water or water with low hardness of temperature of 6 -12° C using a agitator of minimum 2000rpm.
- This solution is normally added during Maturation of beer after yeast removal from tank.

Storage Conditions & Packaging

- QUICKSTABAID[®] L MUST BE STORED at temp. 25±5°C and <35±5% humid conditions
- It is best if used before 12 months from date of manufacturing.
- It is available in 25kg HDPE cans.

All our products, conform to the standard FSSR, 2011 (The food safety and standard regulation, 2011 as amended by regulations, 2016)
