

PRODUCT DATA SHEET

PRODUCT	: SACCARAI D B	
VERSION No.	: 3.0	DATE: 01-12-2016

Introduction:

SaccarAid B is an exo-amylase derived from a selected strain of Aspergillus niger. It is an extra-cellular enzyme which hydrolyses alpha-1,4- bonds in amylose and alpha 1- 4 & alpha 1-6 bonds in amylo-pectins, from non-reducing end of the polymer, producing D- glucose. Thus helps in rapid hydrolysis of amylose and amylopectin to D-glucose.

SaccarAid B is a light brown coloured free flowing powder which is fairly water soluble

Application Conditions:

a) Increase in fermentable sugars:

- i) SaccarAid B @: 0.100-0.150kg per ton non sugar grist
- ii) Time: 30 min-3 hrs
- iii) PH: 4.5-5
- iv) Temperature: 58-60 °C

b) Fermentation and Saccharification:

- i) Temperature: 10-15 °C
- ii Fermentation time: 48-64 hrs
- iii) PH = 3.5-4.5

Safety and Handling:

SaccarAid B is non inflammable, safe to use and easy to handle under standard guidelines of Good Manufacturing Practices. In case of spillage, wash thoroughly with water.

Storage Conditions and Packaging:

SaccarAid B MUST BE STORED at temp. $25\pm 5^{\circ}\text{C}$ and $35\pm 5\%$ humid conditions

SaccarAid B is available in 25 kg HDPE Bags. Under a cool and dry environment can be stored for upto 12 months from the date of manufacturing.

All our products, conform to the standard FSSR, 2011 (The food safety and standard regulation, 2011 as amended by regulations, 2016)

The information contained herein is true and accurate to the best of our knowledge and is offered in good faith. Recommendations are to be optimized at every stage since the conditions and method of use, are specific and beyond our control.
